Cybersecurity Basics 🔐

Brownie Cybersecurity Badge — Girls Build Bots

Presented by your robotics mentors!

Today we become internet-smart 

Not scared of the internet — **smart** about it.

Today: how information **travels**, and which information we **keep private**.

Pass the Message 💬

Everybody in a circle!

1. We'll pass a message hand to hand: *"the robot is blue"*
2. That's a **network** — how information travels between computers
3. Now… we're adding a **listener** in the middle 👂

What did we learn? 🤔

Messages travel through **many hands**.

Anyone along the way might hear.

So some information we keep private.

Private, or OK to share? 🗂️

Let’s sort these cards into two piles!

OK to share 😀 - Favorite animal - Your team name

Private 🔒 - Full name + address - Phone number - Passwords

Play Interland! 🎮

Time to play — one realm, together.

While you play, keep thinking: **would I share this? Why or why not?**

My rules ✋

Name **one thing** you'll keep private.

Name **one thing** that's fine to share.

Robot moment 

Our team keeps our robot code and passwords **private**, so no other team can change our robot.

Being careful with information matters in robotics too!

You did it! 🎉

Today you: - ✅ Learned that a network is how information travels - ✅ Sorted private information from share-able information - ✅ Played an online-safety game and said what it taught you - ✅ Named personal information you'll keep private

Thumbs up if you can spot personal information now! 👍

Keep going at home! 

- **Be Internet Awesome / Interland:** beinternetawesome.withgoogle.com (free!)
- Play a realm with a grown-up and teach *them* the rules
- Ask your troop leader about the next Cybersecurity badge!

📣 Share Your Impact

Troop leaders & robotics teams — if you used this curriculum, please:

1. **Credit us** — the curriculum comes from **Girls Build Bots**
2. **Tag us** — **@girlsbuildbots** on Instagram
3. **Report your results** — email **girlsbuildbots@gmail.com** with how many girls took part, how many badges were earned, and how it went

This is how the program grows — and how the next troop and team get better materials.
