Cybersecurity Investigator

Brownie Cybersecurity Badge — Girls Build Bots

Presented by your robotics mentors!

Today you're a DETECTIVE 🔍

Cyber investigators are detectives.

They **look closely** and **ask questions** before they trust something.

Warm up: spot the difference 👀

Two pictures. One is real. One is a fake.

Can you find what's different?

Detectives notice the small details.

Real or Fake? 

We'll show you a message. You hunt for **clues**:

- Too-good-to-be-true prizes? 🎁
- Lots of exclamation marks!!! ❗
- Spelling mistakes? 🔤
- Asking for private information? 🔒

Then vote: **real or fake** — and tell us your clue!

The detective rule 📜

Don’t trust automatically.

Investigate first.

Crack the Case 🗂️

The mystery: someone got a message saying they won a prize. Should they click it?

In your team, examine your clue cards: 1. The message 📨 2. The sender 👤 3. The link 🔗

Your verdict: safe, or a trick? And what clue gave it away?

Robot moment 

When our robot misbehaves, we **investigate**.

We look for clues in the code to find the real problem — just like a cyber detective.

The Investigator Oath ✋

Finish the sentence:

“Before I trust something online, I will ____.”

- Look for clues 🔍
- Ask a grown-up 🙋
- Check if it’s too good to be true 🎁

You did it! 🎉

Today you: - ✅ Learned that investigators look for clues before trusting - ✅ Spotted the clues that a message might be fake - ✅ Cracked a case with your team - ✅ Took the Investigator Oath

You’re a cyber detective now!

Keep going at home! 

- Play detective with a grown-up: find a too-good-to-be-true message together
- Teach someone at home your three fake-message clues
- Ask your troop leader about the next Cybersecurity badge!

📣 Share Your Impact

Troop leaders & robotics teams — if you used this curriculum, please:

1. **Credit us** — the curriculum comes from **Girls Build Bots**
2. **Tag us** — **@girlsbuildbots** on Instagram
3. **Report your results** — email **girlsbuildbots@gmail.com** with how many girls took part, how many badges were earned, and how it went

This is how the program grows — and how the next troop and team get better materials.
