STEM Career Exploration 🚀

Brownie STEM Badge — Girls Build Bots

Presented by your robotics mentors!

What does STEM mean? 🔤

- **S**cience 🔬
- **T**echnology 💻
- **E**ngineering 🔧
- **M**ath ➗

STEM jobs aren't far away and grown-up. **They grow out of things you already love.**

What do YOU love? 💚

Going around the circle — name **one thing you love to do**.

- Animals 🐾
- Drawing 🎨
- Building 🧱
- Space 🪐
- Puzzles 🧩

There are no wrong answers!

Meet real STEM people ✨

Your mentors are going to tell you their **STEM stories**:

- What we build and do
- How we got started
- One thing we **love** about it

Then it's your turn to ask us anything!

We started right where you are 

We’re only a few years older than you.

Every one of us was once a kid who liked building, or drawing, or asking “how does that work?”

Match your love to a career 🎴

Look at the career cards. Find the match!

- Love **animals**? 🐬 → marine biologist who studies dolphins with underwater robots
- Love **games**? 🎮 → video-game designer
- Love **building**? 🎢 → roller-coaster engineer
- Love **space**? 👩‍🚀 → astronaut

Fill in your sheet 

“I love ____ , so I could be a ____.”

Find at least one match. Your mentors will help you find surprising ones!

Robot moment 🤖

Come drive the robot!

Nothing makes **“I could do this”** feel real like putting your hands on the machine.

My STEM dream 🌟

Name: 1. One STEM job you'd like to **explore** 2. One **small step** you could take

Read a book about it 📚 · *Try a coding game* 💻 · *Ask a question* 🙋

Everybody say it! 

“I could be a ____.”

You did it! 🎉

Today you: - ✅ Learned what STEM stands for - ✅ Met real people on a STEM path - ✅ Connected something you love to a real STEM job - ✅ Named a career to explore and a step to take

Keep going at home! 

- Tell a grown-up about the STEM job you picked
- Take your one small step **this week**
- Ask your troop leader about your next STEM badge!

📣 Share Your Impact

Troop leaders & robotics teams — if you used this curriculum, please:

1. **Credit us** — the curriculum comes from **Girls Build Bots**
2. **Tag us** — **@girlsbuildbots** on Instagram
3. **Report your results** — email **girlsbuildbots@gmail.com** with how many girls took part, how many badges were earned, and how it went

This is how the program grows — and how the next troop and team get better materials.
