STEM Career Exploration 🚀

Junior STEM Badge — Girls Build Bots

Presented by your robotics mentors!

STEM is bigger than you think 

Rapid fire! We call out a job — you vote:

STEM, or not STEM?

Surprise 😮

Job	The STEM inside
Video-game music composer 🎵	audio technology
Sneaker designer 👟	materials engineering
Zookeeper 🦁	animal science + data

Almost every field has a STEM path into it.

So your interests already count.

My STEM Story 

Your mentors each have **2 minutes**:

- What we do on the team
- How we **started**
- One **struggle**
- One thing we **love**

Then ask us anything.

We started where you are 

Nobody handed us a robot.

Every person up here was in fourth grade once.

Career Stations 🔄

Rotate through four stations. **Hands on** at each one:

- 💻 **Programming** → software engineer, roboticist
- 🔧 **Build / CAD** → mechanical engineer, product designer
- 📊 **Strategy / data** → data analyst, engineer-manager
- 📣 **Media / outreach** → technical writer, science communicator

At every station, jot this down 

1. **Did I like this?**
2. **What skill did it use?**

Two minutes of *doing* beats ten minutes of listening.

My Pathway Map 🗺️

Fill in your sheet:

Top interest → skills it uses → a career that fits

Then the important part…

One concrete next step 👣

Not “someday.” **A step, with a when.**

- Join FLL 🤖
- Try a free coding course 💻
- Interview a family friend in STEM 🎤
- Read one book 📚

Robot moment 🤖

Come drive it.

“I could do this” lands hardest with your hands on the controls.

Say it out loud 📣

“I’m exploring ____ , and my next step is ____.”

Saying it makes it real.

What you accomplished ✅

- Explained that STEM careers exist inside almost every field
- Described two STEM careers after meeting people on those paths
- Connected your own interests and skills to a career
- Named a career to explore and a concrete next step

Keep going at home! 

- Take your next step **this week** — put it on a calendar
- Find the STEM inside a job you already think is cool
- Ask your troop leader about your next STEM badge!

📣 Share Your Impact

Troop leaders & robotics teams — if you used this curriculum, please:

1. **Credit us** — the curriculum comes from **Girls Build Bots**
2. **Tag us** — **@girlsbuildbots** on Instagram
3. **Report your results** — email **girlsbuildbots@gmail.com** with how many girls took part, how many badges were earned, and how it went

This is how the program grows — and how the next troop and team get better materials.
